

台灣胸腔暨重症加護醫學會 102 年度「胸腔暨重症醫學」專科醫師考試  
內科影像學標準答案

M01	Sequestration	M19	Esophageal cancer, s/p reconstruction with gastric tube via posterior mediastinal route (答 esophageal reconstruction 就給分)
M02	Microlithiasis	M20	Pulmonary tuberculosis, active (mainly RUL)
M03	Lt side pneumothorax	M21	Pulmonary cryptococcosis
M04	Lt side hemothorax, rib fracture, Lt side clavicular and scapular fracture	M22	Pneumomediastinum, subcutaneous emphysema, destroyed right 2 <sup>nd</sup> rib (metastatic lesion), pneumonia with parapneumonic effusion
M05	Scimitar syndrome	M23	Lung cancer, RUL, with RUL collapse
M06	Tracheal tumor	M24	Left lower lobe infection with consolidation (NTM infection)
M07	Hiatal hernia	M25	Right subphrenic free air (hallow organ perforation)
M08	Thymic carcinoma	M26	Primary pulmonary hypertension (with engorged pulmonary artery)
M09	Adenocarcinoma, LLL	M27	Aortic aneurysm
M10	Submassive right segmental and left lobar pulmonary embolism with pulmonary infarction	M28	Sclerosing hemangioma
M11	Diffuse panbronchiolitis (with bronchiectasis)	M29	Idiopathic pulmonary fibrosis
M12	Pulmonary cryptococcosis	M30	Aspergilloma
M13	髮辮(braided or plaited hair)	M31	Silicosis
M14	Port-A dislocation	M32	Sarcoidosis
M15	Lung cancer + neurofibromatosis	M33	Pulmonary alveolar proteinosis
M16	Kartagener's syndrome with situs inversus (and bilateral lower lobe bronchiectasis)		
M17	Wegener's granulomatosis		
M18	Prominent nipples		

台灣胸腔暨重症加護醫學會 102 年度「胸腔暨重症醫學」專科醫師考試  
外科影像學標準答案

S01	Sequestration	S19	Esophageal cancer, s/p reconstruction with gastric tube via
-----	---------------	-----	---

			posterior mediastinal route (答 esophageal reconstruction 就給分)
S02	Microlithiasis	S20	Pulmonary tuberculosis, active (mainly RUL)
S03	Lt side pneumothorax	S21	Pneumomediastinum, subcutaneous emphysema, destroyed right 2 <sup>nd</sup> rib (metastatic lesion), pneumonia with parapneumonic effusion
S04	Lt side hemothorax, rib fracture, Lt side clavicular and scapular fracture	S22	Right side pneumothorax
S05	Scimitar syndrome	S23	Right subphrenic free air (hallow organ perforation)
S06	Tracheal tumor	S24	Primary pulmonary hypertension (with engorged pulmonary artery)
S07	Hiatal hernia	S25	Aortic aneurysm
S08	Thymic carcinoma	S26	Bulla, right lower lobe
S09	Adenocarcinoma, LLL	S27	Sclerosing hemangioma
S10	Submassive right segmental and left lobar pulmonary embolism with pulmonary infarction	S28	Aspergilloma
S11	Diffuse panbronchiolitis (with bronchiectasis)	S29	Staghorn renal stone, metabolic wire fixation of sterum
S12	Pulmonary cryptococcosis	S30	Right side aorta
S13	髮辮(braided or plaited hair)	S31	Lung cancer, RLL, s/p lobectomy with LU recurrence or another primary lesion
S14	Port-A dislocation	S32	Lung cancer, RUL
S15	Lung cancer + neurofibromatosis	S33	Lung cancer, RUL, with RUL collapse
S16	Kartagener's syndrome with situs inversus (and bilateral lower lobe bronchiectasis)		
S17	Wegener's granulomatosis		
S18	Prominent nipples
